E-NEWSLETTER

RAIL LAND DEVELOPMENT AUTHORITY

A Statutory Authority Under Ministry Of Railways, Government Of India

MESSAGE FROM VICE-CHAIRMAN

Ved Parkash Dudeja
Vice-Chairman, RLDA

Greetings Everyone!

At the outset, let me convey my warmest wishes for Holi, the festival that bids a colourful adieu to winter and heralds the arrival of Spring. Let us look forward to a new beginning with a reawakened spirit and positive outlook towards life.

It is also time to herald the new financial year and reflect upon our successes and shortcomings for the previous year. I would like to congratulate team RLDA for consistent growth in earnings and awarding of lease contracts during 2021-2022 despite the second wave of Covid-19. RLDA achieved total earnings of Rs 365 crores during 2021-22 compared with Rs 349.20 crores in 2020-2021. We awarded lease contracts worth Rs. 655 Crore, with Rs. 533 Crore Upfront Lease Premium and Rs. 122 Crore as Development of Railway Assets during 2021-22.

RLDA has experienced a fantastic start to 2022 with the execution of a number of leases and a slew of new assignments. With this newsletter, I would like to celebrate our achievements and highlight the opportunities that await us with regard to the redevelopment of railway stations across the country. We have recently reached out to major infrastructure firms to work on the redevelopment of the New Delhi railway station, which we plan to finish within four years.

Additionally, RLDA is playing a crucial role in achieving the government's monetization objectives through the transformation of urban landscape. To that end, we are working on redeveloping various commercial land parcels and Railway Colonies. We are all set to achieve higher goals in 2022-2023 to the tune of Rs. 1100 Crore which is three times higher than the previous year. With commitment and dedication, we will continue to serve our patrons and country to the best of our abilities.

Media is one of our key stakeholders and we keep regular contact with them to promote our initiatives, accomplishments and our prominent contributions to real estate development. RLDA's recent developments have been extensively covered by the leading mainstream dailies and business publications. Additionally, customer connection is RLDA's top priority. To keep our customers engaged and informed about our ongoing projects, we are active across all social media channels including Facebook, Twitter, Koo and LinkedIn.

I am overwhelmed by the passion, determination, and drive of all the employees and stakeholders associated with the RLDA who are contributing in equal measure to the success of these development projects.

I am pleased to present the seventh issue of RLDA Connect as we have made tremendous strides to bring you this edition packed with achievements, inspiration, and information. I am also delighted to share this year's first newsletter with you in response to the enthusiastic feedback received from our readers. Your valuable insights help us stay informed and better understand key issues.

This newsletter sums up our achievements and upcoming endeavours, which I hope you will enjoy reading. I would also appreciate all feedback and suggestions you may have for us.

Wishing you greater success in the new financial year!

Thanks!

MESSAGE FROM MEMBER PROJECT

Dear Friends,

First of all, let me take this opportunity to extend my warm wishes on the occasion of Holi. May the festival of colours bring abundant happiness, exuberance and vitality into our life.

I am delighted to share with you the latest edition of RLDA Connect, featuring our accomplishments and endeavours. RLDA is making giant strides and steadfastly progressing in its goal of urban redevelopment as part of advancing planned urbanisation. Over the past few years, we have been entrusted with the development of numerous railway stations, vacant land parcels across India and various Railway Colonies. We expect to complete many more of these projects in the near future.

We have made substantial progress toward developing Indian Railways' massive infrastructure. RLDA has recently signed lease agreements of Ambari, Guwahati (Lease Premium of Rs. 81.31 Crore), Villupuram (Lease Premium of 6.62 Crore) and Sasaram MFC (Lease Premium of Rs. 2.75 Crore).

We are pleased to inform that currently, RLDA is handling 125 Commercial greenfield sites, 84 railway colony redevelopment projects, 123 Multi-Functional Complexes as well as several Railway Stations in India and are working closely with the Zonal Railways on the development of approximately 196 railway stations. By undertaking these development projects, RLDA aims to create ample employment opportunities besides stimulating the economy.

During the last three months, various tenders for Land Leasing for Commercial Development i.e., Boulevard Road Colony, Delhi (Rs. 318 Crore), Bangalore (Rs. 90 Crore), Jaisalmer (Rs. 23.69 Crore), Solapur (Rs. 19.29 Crore), Udaipur (Rs. 10.15 Crore), Abu Road (Rs. 5.18 Crore) and Nizamabad (Rs. 3.95 Crore) have already been invited. Similarly, numerous tenders for Railway Colony Development Works have been invited i.e., Ramgarh Tal Colony, Gorakhpur (Rs. 89.4 Crore), Hubli (Rs. 83 Crore), Chennai Egmore (Rs. 56.9 Crore), Patna (Rs. 47 Crore), Liluah Kolkata (Rs. 29.58 Crore) and Katihar (Rs. 11.7 Crore).

We have also made a beginning in the process of awarding contracts through e-auction. We hope this will become a norm in the future and will help fetch better revenues for RLDA.

With the support of the RLDA family, we are making remarkable progress in developing railway infrastructure across India. The projects we have in the pipeline include the redevelopment of several railway stations and vacant land parcels, as well as generating non-tariff revenue this year. Our collective efforts as a team will be imperative to achieving these goals.

Thanks,

Anjani Kumar
Member/Projects

MESSAGE FROM THE EDITOR

Dear Friends,

I take this opportunity to present the seventh issue of RLDA Connect. This first edition of RLDA Connect in FY 2022-23 gives a brief about the activities that have happened during the past three months. The "Knowledge Centre" will give you an insight into India's most popular - "Pamban Bridge" situated in Rameshwaram, Tamil Nadu. The "Creative Corner" section talks about this year's Women's Day theme – "Gender equality today for a sustainable tomorrow", to honour the leadership of women and girls who are taking on the challenge of climate change adaptation and response and contributing towards a sustainable future.

Land development is essential for a developing country like India, which has vast unused land parcels. Developing the available land bank is indeed an excellent opportunity for the Indian Railways as it unlocks long-term potential in terms of retail and commercial development, employment generation, real estate development, and much more. RLDA has also been granted the mandate for the redevelopment of railway stations over a specific period, which is a golden chance for us to broaden our knowledge base. We have made noticeable progress on numerous projects, even during the lockdown. Through this newsletter, we intend to showcase our accomplishments and solicit feedback from all of you.

On behalf of RLDA, I would like to thank all of you for supporting this initiative. Your appreciation and feedback make us work harder toward reinforcing our commitment with all stakeholders.

I am sure we are geared up to give our 100% and take RLDA to unprecedented heights during the ensuing FY 2022-23.

Muktesh Mittal
Executive Director /Finance

CREATIVE CORNER

Making optimal use of all resources is a major goal for the world, and women have been playing a crucial role in assisting with this mission. The limitations and boundaries for women have changed significantly due to the progressive thinking of today's generation. In honour of the International Women's Day, we salute the social, monetary, and political accomplishments of women, whose leadership has been recognized around the world as a driving force in economic growth.

The theme decided by the UN this year was- **"Gender equality today for a sustainable tomorrow"** highlighting the contributions of women and girls around the globe who are leading various important initiatives such as climate change adaptation, mitigation, and response, to build a more sustainable future for all.

Advancing gender equality in the context of the climate change and disaster risk reduction is one of the greatest global challenges of the 21st century. We are currently experiencing serious, enduring impacts from environmental change and sustainability issues. The solution to such problems calls for collective efforts, regardless of gender.

Women and girls are equally capable of making a positive impact on issues such as climate adaption and mitigation. Women nowadays are actively taking part in a variety of climate initiatives all around the world and their involvement has made climate action more effective. Women in India are also playing a vital role in the adaptation and mitigation of climate change. They have also inspired women in other parts of the world with their unwavering efforts and willingness to take on such major causes.

Moreover, International Women's Day this year called for a world free of bias, stereotypes, and discrimination, with the theme #BreakTheBias. This year IWD took a shot at gender discrimination and stereotypes that women face in many places. The theme focused on empowering women and breaking all the unrealistic norms that are set by the public when it comes to women's freedom.

Women's empowerment benefits communities and societies on a whole. Thus, providing women with equal and fair rights has always been a trending topic. The world has witnessed a change in the past few years as women around the world have reunited and are now fighting for their rights without fear of judgement.

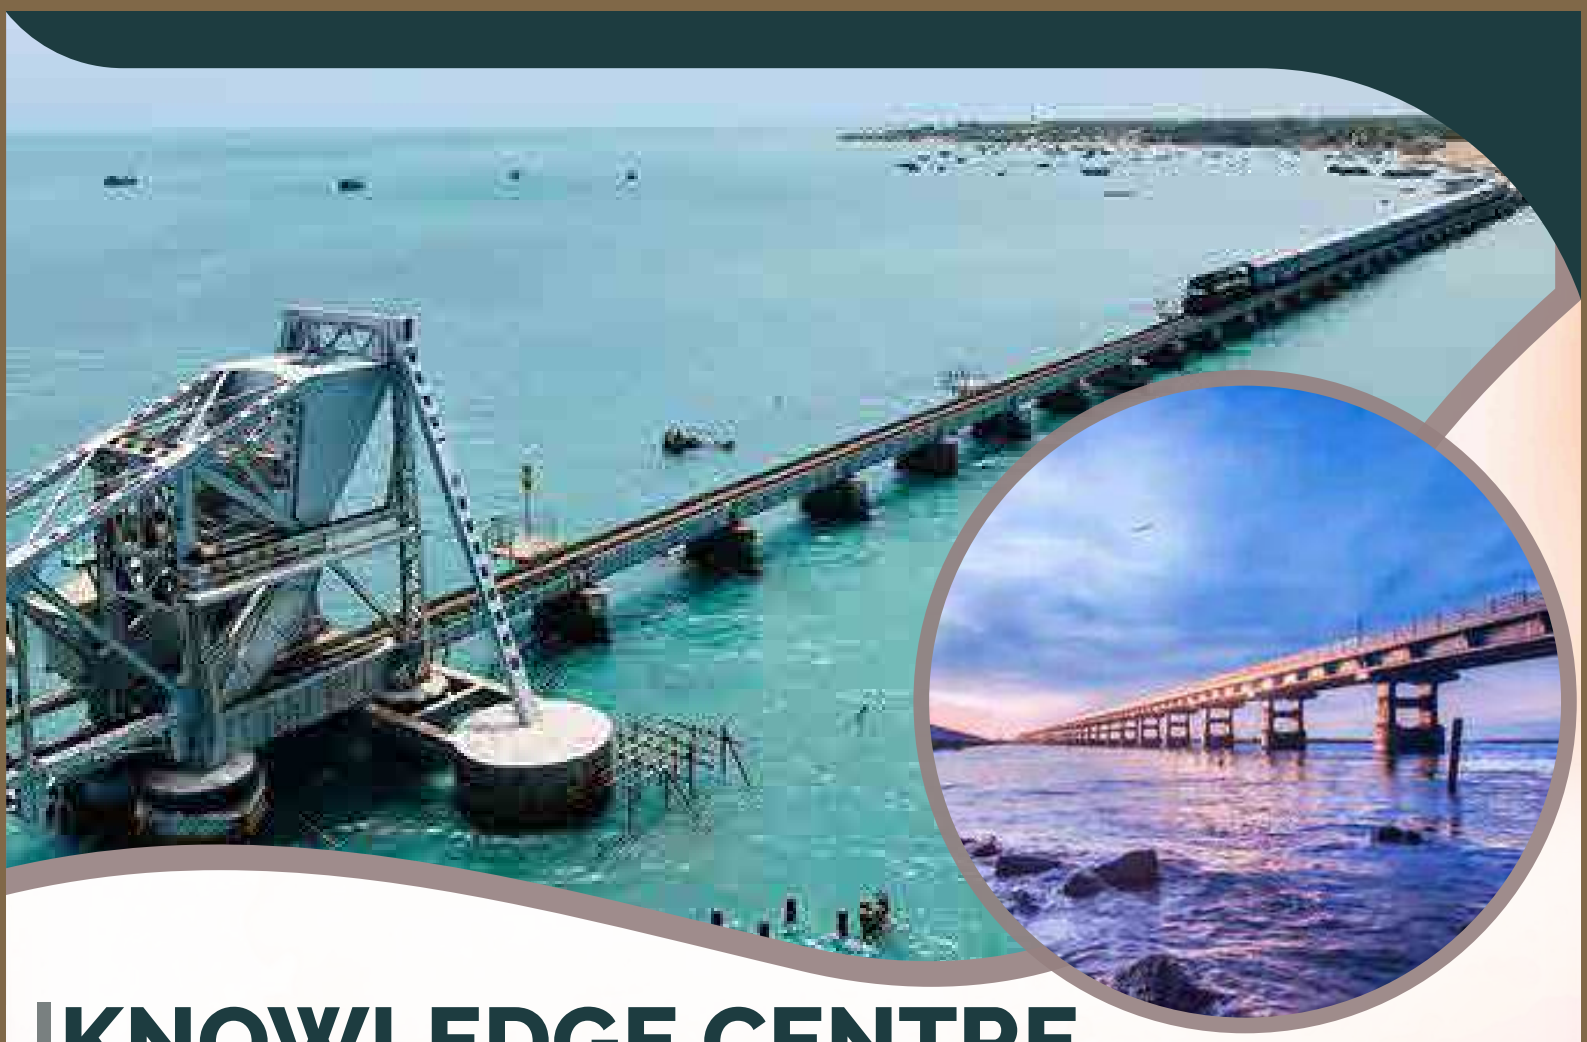
Manager/Project



KNOWLEDGE CENTRE

The Pamban Bridge: A Sight to Behold

There are many unexplored places in India that we know nothing about. RLDA Connects aims to introduce you to many such places that you have never seen or heard of before. In this edition of RLDA Connect we will explore one of the most popular and picturesque railway bridges of India - **The Pamban Bridge**.

Pamban Bridge is one of the oldest bridges situated in the Rameswaram district of Tamil Nadu and standing still for the past 100 years. Construction of this bridge took 14 years and it was inaugurated by the former Indian Prime Minister Shri Rajiv Gandhi on 2 October 1988. With a length of 2.345 km, it is one of the longest bridges in India. This bridge plays a crucial role in connecting Mandapam and Rameswaram at the Pamban mainland.

Tourists from all over the world who visit Tamil Nadu to explore its world-famous landmarks consider the Pamban Bridge as one of the most exciting and must-watch tourist spots. Chennai Express and Rameswaram Express are two of the most popular trains that pass from Pamban Bridge, thus, offering a thrilling and scenic experience to the passengers on board. Because of safety concerns and the unique structure of the bridge, the speed limit is set between 15 and 25 kms per hour. An interesting feature of this bridge is the lift span, which can be raised to let ships pass. Each half of the lifting span weighs around 415 tonnes (457 tons). The two bridge leaves are opened manually with levers that attract people's attention.

Back in 2018, this bridge was damaged during a cyclone in Rameswaram but it was reopened after maintenance on 27th February 2019.

Railway Minister, recently announced that a new railway bridge will be constructed near the legendary Pamban Bridge with a budget of Rs. 250 crores. This new dual-track railway bridge will be constructed in automotive mode, allowing two ships to pass on this bridge simultaneously, giving it the appearance of an up-gradation of the 104 years-old bridge. The new bridge is set to be inaugurated soon and its dual-line and strong structure will allow more passengers and freight to pass between the mainland of Pamban and Rameswaram.

RLDA@ UPDATE

Gomtinagar Railway Station was inspected by the Hon'ble Railway Minister Shri Ashwini Vaishnaw ji, along with the RLDA officials. Shri Ved Parkash Dudeja, Vice Chairman, RLDA was also present on the occasion.

2022 may be the year of booming real estate markets

With the gradual recovery in the economy and real estate becoming more affordable, we are set to witness a new growth in the sales of real estate.

Updated: January 31, 2022 1:13:29 pm

The wheel in the realty sector is not only moving towards residential spaces but investments in the commercial land sector are becoming more relevant than ever.

Which is the place you've spent most of your time during the COVID-19 lockdowns? You are correct if the first thought that comes to your mind is — your home. In the last two years, our lives have been more homebound than taking the usual daily commutes to the office. This period gave people enough time to ponder on how necessary was it for them to have a safe home of their own. And year 2022 is precisely about turning this realisation into an actuality through growing demand for homeownership. People's dream of buying homes and investing in real estate prevailed throughout 2020 and 2021 and has now shown evidence of turning real in the new year — 2022.

वाराणसी रेल मंडल के झूंसी में खाली पड़ी भूमि पर बनेंगे बहुउद्देशीय भवन,भूखंड को पट्टे पर देने की तैयारी

Author: Sourath Chakravarty

वाराणसी, जागरण संवाददाता। रेलवे के आवासीय विकास के लिए प्रस्तावित स्थल का आकार आयताकार है और रेल, सड़क और वायु के व्यापक नेटवर्क से अच्छी तरह जुड़ा हुआ है। यह प्रयागराज हवाई अड्डे से लगभग 25 किलोमीटर दूर है, जबकि झूंसी रेलवे स्टेशन, प्रस्तावित स्थल के ठीक सामने स्थित है। इस साइट तक पहुंच बेहद सुविधाजनक है, सामने की वर्तमान सड़क 12 मीटर चौड़ी है, जिसे आगे 24 मीटर तक चौड़ा करने का प्रस्ताव है। यह भूखंड पश्चिम में सिविल लाइन बस डिपो, पूर्व में जिला अस्पताल, दक्षिण में झूंसी रेलवे स्टेशन और उत्तर की ओर कम ऊंचाई वाले आवासीय भवनों जैसी प्रमुख संरचनाओं से घिरा हुआ है। पूर्वोत्तर रेलवे वाराणसी मंडल में शामिल झूंसी (प्रयागराज) स्टेशन के आवासीय भूखंड पर बहुउद्देशीय भवन विकसित करने की तैयारी है। यह रेलवे की कुल 70,606 वर्गमीटर भूमि पर आवासीय विकास किया जाएगा। भूखंड को पट्टे पर देने के लिए रेल भूमि विकास प्राधिकरण (आरएलडीए) की ओर से बोलियां आमंत्रित की गई हैं।

NEW DELHI: The M Visvesvaraya railway terminal in Bengaluru is ready for commissioning as the country's third 'world-class' railway station in the near future. Earlier, the Gandhinagar capital railway station in Gujarat and the Rani Kamlapati railway station in Madhya Pradesh were redeveloped and commissioned as the country's first and second 'world-class' stations of the Indian railways.

The M Visvesvaraya terminal in Bengaluru is likely to be commissioned by March 2022. Besides this, work is in progress at five other railway stations – in Ayodhya, Safadarjung, Bijwasan, Gomatinagar and Ajni (Nagpur) – to redevelop them as world-class.

RLDA conducts stakeholder engagement meeting for redevelopment of New Delhi Railway Station

ANI 4 March, 2022 10:00 pm IST

New Delhi [India], March 4 (ANI): The Rail Land Development Authority discussed the redevelopment plans of the New Delhi Railway Station with the developers in a meeting chaired by Ved Parkash Dudeja, Vice Chairman, RLDA, as per an official statement issued by the authority on Friday.

According to the statement, RLDA also intimated that Request for Qualification (RFQ) cum Request for Proposal (RFP) shall be invited shortly where new developers can also participate in the bidding process.

After this meeting, Dudeja said, "The redevelopment of the New Delhi Railway Station is one of our flagship projects that will stimulate the economy of the NCR. The project has attracted the attention of national and international stakeholders as well. Nearly, all the approvals pertaining to this project have already been received."

RLDA invites e-bids for leasing of railway land at Nizamabad

Our Bureau Hyderabad, March 23 Rail Land Development Authority (RLDA) has invited online bids for the commercial development of a land parcel at Nizamabad, Telangana.

The site spanning 2,204 sq m is in the Hyderabad Division of South Central Railway near the Railway Station and Main Bus Stand. The land will be leased for 45 years with a referenced Built-Up Area of 6,173 sq metre, for a reserve price of ₹3.95 crore. The deadline for the submission of bid is April 18, 2022.

"Commercial developments will be the first of its kind on the site and boost the region's real estate, tourism, and investment prospects." Ved Parkash Dudeja, Vice-Chairman, RLDA, said in a statement. Upon selection, the bidder will have the flexibility of carrying out the development as per local building bye-laws. The developer will have the right to market and sublease the built-up space.
