E-NEWSLETTER

PROPOSED VIEW OF DELHI CANTONMENT RAILWAY STATION

RAIL LAND DEVELOPMENT AUTHORITY

A Statutory Authority Under Ministry Of Railways, Government Of India

RLDA | Q2 - APRIL - JUNE, 2025

MESSAGE FROM VICE -CHAIRMAN

Dear Friends,

Greetings and welcome to the Q2 2025 edition of RLDA Connect

This has been a quarter of focused progress across our core mandates—commercial development of assets, multi-functional complexes (MFCs), and colony redevelopment—and we continue to work swiftly in redeveloping entrusted Railway stations. We are working towards upcoming newer models viz as revenue-sharing and Integrated Station Facility Management. These steps reflect RLDA's growing maturity as an arm of Indian Railways handling vibrant spheres.

A key milestone this quarter was the handover of 26 newly constructed railway quarters at Brahmpura Colony (Sonpur Division, East Central Railway) in June 2025—enhancing residential infrastructure for railway staff. Earlier, in May 2025, we handed over two Type IV residential towers at Ajni Colony (28 modern quarters), reinforcing our commitment to modern, well-equipped railway housing. With multiple sites in the pipeline, the colony redevelopment vertical continues to gain momentum nationwide.

On the commercial and passenger interface side, the Multi-Functional Complex at Nadiad (Vadodara Division, Western Railway) was completed and commissioned in June 2025, thus adding passenger amenities for passengers and harnessing development potential. Sustainability also remained in focus: the CSMT project secured a provisional IGBC Platinum rating in June 2025, which is a vindication of our commitment towards green initiatives.

The upcoming models viz Revenue Share Model for commercial development & Integrated Station Facility Management are market friendly initiatives which will position the presence of RLDA at a different stature in real estate market.

As we advance through 2025, RLDA remains committed to transforming Railway assets into state of the art commercially developed ecosystems that optimize space use, enhance passenger experience, and support sustainable growth.

Best regards,
Manoj Garg
Vice Chairman, RLDA

MESSAGE FROM
MEMBER BUSINESS DEVELOPMENT

Dear Colleagues,

It gives me great pleasure to share some of the key achievements of Rail Land Development Authority (RLDA). In FY 2024–25, RLDA has achieved notable success in revenue generation and business development. Through continuous efforts and strategic foresight, RLDA attained a total earning of Rs 1297.81 crore in 2024–25, which is 35% higher than the earning for the year previous year.

Since its inception in 2007, Rail Land Development Authority (RLDA) has achieved significant progress across its key mandates through innovation and persistent efforts. By the end of Financial Year 2024–25, RLDA has successfully awarded 48 out of 160 sites entrusted for commercial development, 19 out of 118 colony redevelopment sites entrusted, and 56 out of 64 Multi-Functional Complexes sites entrusted. Further, 91 stations have been entrusted for planning to RLDA, of which 57 have had their DPRs prepared and handed over to Zonal Railways, and 20 are in the planning stage. RLDA is carrying out redevelopment of 14 major railway stations, including the flagship transformations of New Delhi (NDLS), Ahmedabad (ADI), and Mumbai's historic Chhatrapati Shivaji Maharaj Terminus (CSMT). Work is in progress at these stations with swift speed.

During 2024–25, RLDA has also taken up consultancy works for prestigious Railway institutions and organisations, including planning and consultancy for the commercial utilization of CRIS Office space at Chanakyapuri, upgrading of Oak Grove School, Jharipani, augmentation of training infrastructure and capacity at IRIEEN, Nasik, and construction of ROB at Ahmedabad railway station. This reflects the confidence and capacity attained by RLDA in its competency of planning and construction in diverse areas.

We have been actively marketing our products in the market through social media advertisements, participation in exhibitions, pre-bid meetings, hoardings, campaigns, bulk messaging, personal calling and contacting, etc., and the efforts have been reflected in the form of aforementioned success stories.

As a part of our evolving business model, RLDA is strategically shifting towards Revenue Share model. We are also in process of bringing Integrated Facility Management to professionally manage the facilities of Railway stations. By combining optimum land utilization with professional station operations, these initiatives ensure enhanced passenger services, sustainable commercial growth, and long-term value creation for Indian Railways.

PROPOSED VIEW OF CSMT

Guided by the Strategic Roadmap to Vision Map 2047, RLDA is steadily progressing to be recognized as a preeminent land and station development authority, as well as an expert building construction agency of Indian Railway and aims to be a leader in creating value through redevelopment of land and airspaces – residential, commercial and transportation hubs.

This long-term vision gives a key role to RLDA in contributing towards India's infrastructure push.

Let us remain focused on our mission – to transform railway infrastructure, redefine commercial development standards, and create a lasting legacy of value, sustainability, and nation-building.

Warm regards,
Mudit Chandra
Member (Business Development), RLDA

FROM THE EDITOR'S DESK

Welcome to the latest edition of RLDA Connect! As RLDA continues to evolve as a catalyst for infrastructure innovation, this platform remains a vibrant reflection of our progress, vision, and commitment. The overwhelming response to previous editions has been both encouraging and energizing—and we're delighted to reconnect with our readers once again.

This issue highlights some of the most remarkable developments in RLDA verticals along with a glimpse of upcoming initiatives in near future. In our knowledge centre feature, we unpack the intricacies of concourse design—examining how these expansive, open spaces are not just functional hubs but also critical to improving commuter flow and experience.

Our Creative Corner showcases "Expanding Horizons: Reimagining Railway Infrastructure with Vision and Versatility"—a narrative that captures how RLDA has fanned out its work scope since it's inception which is a result of blending innovative thinking with purpose-driven intricate planning to shape the next generation of public infrastructure.

As we move ahead, RLDA remains committed to active engagement across platforms like X (formerly Twitter), Facebook, LinkedIn, Instagram, and YouTube. I would like to extend heartfelt thanks to our incredible team, whose dedication and passion continue to drive our collective success.

Thank you for being part of this exciting journey. Together, let's continue redefining the future of India's railway infrastructure.

PROPOSED VIEW OF SAFDARJUNG RAILWAY STATION

Warm regards,
Apurva Agnihotri
General Manager / Security & IT, RLDA

CREATIVE CORNER

OUR EXPANDING HORIZON:
REDEFINING RAILWAY INFRASTRUCTURE THROUGH VISION AND VERSATILITY

RLDA's original mandate was commercial development of railway land. The original mandate resulted in offshoot of three traditional verticals – Multifunctional Complexes, Commercial development of land and Colony redevelopment. Since 2021, RLDA has taken up planning and redevelopment work of Railway Stations also thus creating 4th traditional vertical of Station Redevelopment. Subsequently, RLDA has added depth in traditional verticals and expanded its horizons, which is now well recognized.

RLDA continues to expand its role, evolving into a multifaceted authority driving the next wave of infrastructure development. With a focus on providing State-of-the-Art structures & practices, sustainability, harnessing commercial value, and enhanced passenger experience, RLDA's work today spans Six core pillars that reflect its growing influence and integrated approach.

RLDA has matured as an expert arm of Indian Railways for the commercial development of surplus railway land. With extensive pan-India reach and domain expertise, RLDA has ensured that there is an optimal utilization of valuable land parcels, unlocking of revenue potential for land while contributing to urban growth and infrastructure renewal. RLDA has significantly broadened its scope, now encompassing the creation and managing of strategically constructed spaces inside, near or above railway stations. The Gomti Nagar Railway Station in Lucknow and Safdarjung Station in Delhi are set to be the first two projects developed with RLDA's retained earnings, with many more projects currently in the planning/execution stages. With Revenue share model expected to come up in near future. RLDA will introduce a new model at commercial development in real estate market.

CREATIVE CORNER

PROPOSED VIEW OF SURAT RAILWAY STATION

RLDA is handling important 14 stations including 4 flagship stations of New Delhi (NDLS), Ahmedabad (ADI), Mumbai's historic Chhatrapati Shivaji Maharaj Terminus (CSMT) and Surat MMTH. Due to meticulous planning, training and effective implementations, RLDA has also emerged as a pioneer in station redevelopment, transforming key railway terminals into modern world class transportation hubs embedded with city center elements, State-Of-the-Art architecture & design, high level passenger amenities, sustainability, future readiness and smooth passenger traffic flow which will take Railway transport to Zenith.

RLDA is actively involved in the Redevelopment of railway colonies across the country. This initiative is aimed at improving the living standards of railway employees and their families, with better housing, amenities, and neighbourhood planning that aligns with commercial development of land. RLDA has also emerged as a think tank for the Railways for planning effective models with current endeavours being for master planning of land.

Another key endeavour is RLDA's role as a consultant for Railway Organisations. By leveraging its expertise, the Authority is assisting various Railway organizations—these projects include CRIS Office Space at Chanakyapuri, upgrading OAK Grove School, and augmenting training infrastructure and capacity at IRIEEN, Nasik and specialized feasibility study to unlock the commercial potential of railway corridors between Vatva and Sabarmati.

Creation of Multi-Functional Complexes (MFCs) within railway stations was first initiative of RLDA which centered around providing by offering a mix of retail, hospitality, health and passenger services—providing convenience to travelers while boosting the local economy.

With Core competences developed in the above areas, RLDA is working towards adding depth in commercial development through Revenue Share Model. It is also working to expand horizon further by adding ISFM (Integrated Station Facility Management Vertical), thus creating a stronger presence of RLDA in real estate market.

KNOWLEDGE CENTRE

A LOOK INTO ASPECTS OF CREATING CONCOURSE IN STATIONS REDEVELOPMENT

The redevelopment initiative of Railway Station is a landmark project aims to transform stations into integrated, multi-functional urban centers, offering enhanced amenities such as retail outlets, food courts, waiting lounges and recreational facilities. A key design feature being incorporated is the segregation of arriving and departing passengers to streamline passenger movement and improve operational efficiency.

RLDA is adopting advanced technologies and construction methods to redefine the way railway stations are conceived and executed. A major structural component of these projects is the air concourse, a large-span structure constructed over railway tracks that connect station buildings on both sides. They are designed for departing passengers to provide them with access to platforms via escalators, elevators, staircases and ramps. To expedite construction while minimizing disruption to ongoing railway operations with minimum inconvenience to passengers, RLDA is employing pre-engineered and prefabricated construction techniques to a large extent in construction of Air Concourse.

PROPOSED VIEW OF NAGPUR RAILWAY STATION

The structural design of such a complex and large-span Air Concourse is of utmost importance to ensure safety and durability of structure during its service life as well as safety during construction stage. The process begins with the preparation of a structural Design Basis Report (DBR) which outlines site-specific parameters such as soil characteristics, material specifications, and all relevant load considerations—including dead load , live load, wind load, seismic load (the seismic code is used as per IRS codes due to longer spans over tracks) and other loads such as construction and erection load, temperature load, surcharge load, shrinkage, creep, and earth/water pressure loads are also used depending upon the site condition and requirements. The DBR undergoes review and certification by premier technical institutes such as IITs or NITs, Authority Engineer and final internal approval.

Upon structural DBR approval, the detailed structural design stage is initiated, encompassing structural calculations, detailed drawings, and the methodology for construction. These are again reviewed by the designated technical institute and Authority Engineer and subsequently audited by RLDA's design unit to ensure full compliance with applicable IS and IRS codes. The review process includes assessments of safety, durability, structural feasibility, foundation systems (based on the soil investigation report), and dynamic performance. Typically, the concourse structure is designed using a steel-concrete composite system and through roof above concourse comprises color-coated sheets with thermal insulation, supported by Z- or box-shaped purlins, ensuring rapid construction, structural safety, and thermal comfort. They are supported by varying column types—such as RCC columns, hollow tubular sections, concrete-filled steel sections, and I-section columns—arranged on a square or rectangular grid as per architectural and structural requirements.

Since these projects are brownfield there are challenges posed by working in cramped spaces with trains running, 25,000 Volts overhead electric lines, and people moving near the construction areas. In order to ensure the success of these projects detailed and well-vetted construction and launching schemes are prepared and approved. These schemes prioritize public safety, maintain uninterrupted railway operations, and enable execution of construction activities in a phased manner. Construction activities commence in a phased manner following the finalization and approval of erection and launching schemes. Given the complexity and operational sensitivity of station redevelopment works, RLDA's strategy emphasizes the adoption of state-of-the-art construction technologies and efficient project management techniques.

Warm regards,
Atul Kumar Verma
General Manager/Design, RLDA

DETAILS OF LOA
ISSUED DURING THE QUARTER

NAME OF SITE	AMOUNT
COMMERCIAL TOWER AT THANE RAILWAY STATION ABOVE SATIS (E) ON EPC	Rs. 126.01 Crores

RLDA WELCOMES
DURING THE QUARTER

1. Sh. Pavas Yadav- JGM/Civil at Lucknow
2. Sh. G. Srinivasulu- JGM/Civil /Mumbai-2
3. Sh. Awadhesh Kumar - JGM/Electrical in RLDA/Delhi
4. Sh. Sanjay Kumar P- DGM/Civil /Mumbai-2
5. Sh. Budda Bhargava Reddy - Manager/Civil at Hyderabad
6. Sh. Gulshan Soni – Protocol Inspector
7. Sh. Ranveer Singh Badhala - AM/Civil/ Ahmedabad
8. Sh. Anurag Sharma- AM/Civil/Delhi

RLDA BID FAREWELL
DURING THE QUARTER

1. Sh. Praveen Kumar Agarwal- Member/Revenue/RLDA
2. Col. Nirmal Singh Negi - JGM/P/NGP
3. Col. Amit Sharma- JGM/P4
4. Sh. Prabhat Ranjan Singh - JGM/P/Muzaffarpur/RLDA
5. Sh. Santosh Pathak - Manager/P/SD/NDLS
6. Sh. Dudi Chalapati Rao- AM/Project/Bhubaneswar
7. Sh. Anjesh Kumar- AM/Project/Muzaffarpur

AGREEMENT SIGNED DURING THIS QUARTER

Agreement of Vasundhara, Varanasi in kind guidance of VC Sir, Member/Planning, ED/Project, CPM/LKO and GM/Tender on 05.05.2025

Agreement of Pocket-F in Vibhuti Khand, Gomti Nagar Lucknow in -kind guidance of VC Sir, Member/Planning, CPM/LKO and JGM/Project on 11.06.2025

RLDA has a well established policy of safety first.

Ahemedabad station under redevelopment by RLDA like other stations has been following such norms and practices in true spirit. Due precautions are taken and preparations are done to ensure safety at the site.

Further, the Safety Month – March 2025, Including the 54th National Safety Day on 4th March 2025, were marked by events like hoisting of a safety flag and housekeeping drive. Throughout the month, conducted impactful safety competitions, inspections, training sessions, and awareness programs—empowering every team member from workmen to Project Managers.

With the active involvement of Contractor M/s DRA-DMRC JV, PMS M/s Systra-Mace consortium and RLDA site leadership, we reaffirm our collective commitment to creating safer workplaces for all.

Transforming Communities, Building Futures!

As part of the Ramgarh Taal Colony redevelopment in Gorakhpur, RLDA proudly announces the inauguration of a modern Community Centre and 5 state-of-the-art Transit Suites, inaugurated today by GM/NER.

Community Centre:
G+1 building | 3,770 sq. ft. built-up area | 5,000 sq. ft. green space
Includes multipurpose halls, kitchen, washrooms, and green room

Transit Suites:
G+1 building | 5,070 sq. ft. built-up area
5 fully-furnished suites with living room, dining area, kitchen, and attached baths

This initiative marks another milestone in our journey to develop inclusive, green, and sustainabl urban spaces under the EPC model.

At RLDA, we don't just build infrastructure — we care for people, too.

During course of project execution, RLDA is taking care of passenger convenience by effective traffic planning and providing any help including emergency assistance.

Recently, a female passenger experienced dizziness and fainted near the new exit of Platform 1 at Ahmedabad Railway Station. Our alert staff responded promptly and arranged immediate ambulance support, ensuring she received timely medical care.

27 May

RLDA celebrated its Annual Day on 26 May 2025 with great enthusiasm. The event was graced by Chairman & CEO, Railway Board, Shri Satish Kumar, Member Infrastructure Railway Board Shri Naveen Gulati, senior officials from Zonal Railways, and former Railway and RLDA leaders.

Chairman & CEO RB & Member Infra RB appreciated RLDA's roadmap, progress & growing competencies.
VC/RLDA Shri Manoj Garg shared how RLDA's role now spans beyond commercial development of land to include station redevelopment, ROBs, tunnels, campuses & more.

The also event featured release of souvenier & felicitation of top performers for their outstanding performances in their work areas.

A memorable evening celebrating RLDA's initiatives & achievements!

RLDA's colony redevelopment initiative continues to redefine modern infrastructure for railway personnel through sustainable and modern living spaces.

We are pleased to share that the Railway Colony project in Ludhiana is progressing steadily towards completion and is soon to be inaugurated.

The development comprises 5 residential towers with a mix of Type-II, Type-IV, and Type-V quarters, thoughtfully designed to meet diverse residential needs. The towers, offering a total of well-planned quarters along with a dedicated Clubhouse for community engagement.

This project highlights RLDA's commitment to excellence in infrastructure, blending functionality, comfort, and future-readiness for the benefit of railway personnel.

Rail Land Development Authority
8 June

A facilitative step in the redevelopment of Ahmedabad Railway Station was marked today with the successful girder launching for a new Foot Over Bridge—to ensure seamless passenger movement ahead of the planned block for platforms 9 & 10. Four girders, each 18m long and weighing 9MT, were launched using a 200MT crane placed on Platform 1, working across 5 tracks and 2 platforms. The complex task lift was completed well within the 2-hour traffic cum power block.

The operation was executed with strict adherence to all safety protocols including TBTs, third-party inspections, and ground SBC checks under Team RLDA Ahemedabad Led by CPM RLDA Shri Sanjeev Kumar and others including JGM/RLDA Shri Arpan Awasthi, supported by engineers from M/s DRA-DMRC JV and PMS M/s Systra-MACE.

RLDA continues to drive world-class infrastructure with efficiency, innovation, and a passenger-first approach.

Lucknow News: RLDA To Upgrade Approach Roads At Charbagh Railway Station For Smoother Traffic Flow

The Charbagh Railway Station in Lucknow will undergo upgrades to its approach road, improving traffic flow and passenger experience. The project aims to improve traffic circulation and ease congestion, particularly at the main entrance and reservation center.

By **Kamakshi Bishnoi**
Tue, 01 Apr 2025 12:01 PM (IST)
Source:IND

The approach road of Charbagh railway station, Lucknow, is set to improve as part of the station's upgradation project, led by the Railway Land Development Authority (RLDA). This initiative aims to enhance traffic movement and provide passengers with a better commuting experience. The RLDA will begin road repair work in April, focusing on key areas around the station.

The North Railway Lucknow Division will oversee the repair and improvement of approach roads, ensuring smoother access for travelers. A new building is also under construction at the station's second entry, along with additional passenger amenities. As part of this development, preparations are underway to upgrade the main entrance area of Charbagh station.

बौलिया रेलवे कालोनी में खुला सामुदायिक भवन

जासं, गोरखपुर: बौलिया रेलवे कालोनी में मंगलवार को उत्सव सामुदायिक भवन खुला। पूर्वोत्तर रेलवे की महाप्रबंधक सौम्या माथुर की उपस्थिति में कार्यालय सहायक रामकेतकी ने फलक का अनावरण एवं फीता काटकर उत्सव सामुदायिक भवन का उद्घाटन किया। उद्घाटन के बाद महाप्रबंधक ने लेआउट प्लान का अवलोकन कर सामुदायिक भवन का निरीक्षण किया। संबंधित जानकारी लेने के साथ आवश्यक दिशा-निर्देश भी जारी किया।

महाप्रबंधक सौम्या माथुर की उपस्थिति में फीता काटकर उत्सव सामुदायिक भवन का उद्घाटन करती कार्यालय सहायक रामकेतकी • सौ. रेलवे

महाप्रबंधक ने सैयद मोदी रेलवे स्टेडियम, गोरखपुर में नवनिर्मित लान टेनिस कोर्ट का उद्घाटन किया। उन्होंने अपर महाप्रबंधक दिनेश कुमार सिंह के साथ टेनिस खेल कर टेनिस कोर्ट के उद्घाटन की औपचारिक घोषणा की। कहा कि सैयद मोदी रेलवे स्टेडियम, गोरखपुर में अंतरराष्ट्रीय मानक का लान टेनिस कोर्ट बहुत अल्प समय में तैयार किया गया है। इसके अलावा महाप्रबंधक आवास परिसर (गोल्फ कालोनी), गोरखपुर में स्थित नवनिर्मित 'सरयू विश्राम गृह' का फलक अनावरण एवं फीता काटकर उद्घाटन की। पूर्वोत्तर रेलवे के समस्त प्रमुख विभागाध्यक्ष, रेल भूमि विकास प्राधिकरण के अधिकारी और कर्मचारी उपस्थित थे।
