HOLDING AREA,
NEW DELHI RAILWAY STATION

RAIL LAND DEVELOPMENT AUTHORITY

A Statutory Authority Under Ministry Of Railways, Government Of India

RLDA | Q3 - JULY - SEPTEMBER, 2025

MESSAGE FROM VICE-CHAIRMAN

Dear Friends,

As we navigate through the third quarter of the current fiscal year, I extend my warmest greetings to each of you. This period has been marked by significant momentum and reminds us of the core spirit of progress and national development, reflecting the very ethos that guides the Rail Land Development Authority (RLDA) in shaping India's vital railway and urban infrastructure.

The relentless efforts of Team RLDA continue to strengthen India's railway ecosystem and commercial development initiatives. Your dedication has consistently translated into impactful projects, innovative solutions, and passenger-centric improvements across stations and creating employee centric railway modern colonies. Each milestone reached is a reflection of our shared vision for modern, efficient, and inclusive infrastructure.

I am pleased to highlight the completion of the state-of-the-art Holding Area (Yatri Suvidha Kendra) at New Delhi Railway Station in a record time of just three months. Developed by RLDA in close coordination with Northern Railway and RITES on the Ajmeri Gate side, this facility is designed to streamline passenger flow, improve crowd management, and enhance travel comfort for lakhs of travellers every day. The facility stands as a testament to Indian Railways' and RLDA's commitment to modern, passenger-friendly infrastructure and efficient operations. It shall stand as a model for planning such crowd management solutions in times to come.

Another key highlight of the month was the inauguration of redeveloped Ludhiana colony which was inaugurated by the hon'ble Union Minister of state for Railway and Food processing Industries, Sh. Ravneet Singh Bittu. Our colony initiative is now delivering in 2025 with Ajni colony delivered on 23rd May 2025, Brahmpura Colony at Muzaffarpur on 25th June 2025 and Rifle range Colony (Secunderabad), M.G Colony (Bangalore) being in advanced stage of construction.

RLDA's progressive Revenue Share Model and the ISFM approach continue to redefine our core activity umbrella. The Revenue Share Model, which is a new approach of sharing gains shall cover all types of assets, Land plots, Built up spaces and Air spaces. Bids have been invited / under process of inviting for several high-value RLDA projects. The bid invitations include the commercial development of land plots at Boulevard Road in Delhi, Subzi Mandi in Delhi, Mahalaxmi in Mumbai, Supari Baug-Parel in Mumbai and Bandra East site in Mumbai. The bids for built-up areas in Gurugram Railway Station, Charbagh Railway Station in Lucknow and Air space at Tirupati Railway Station have also been invited. In the coming months, bids for more assets viz land plots, built up spaces and Airspace are in pipeline.

Under the ISFM framework, the appointed agency will manage the station premises for housekeeping, O&M and commercial activities. RLDA has invited bids for Integrated Station Facility Management at Gomti Nagar Railway Station in Lucknow on 4.09.25 and Chandigarh Railway Station on 26.09.25. The bids for more Railway Stations would come up in coming times. Together, these models are paving the way for a new era of modern, world-class, and citizen-focused railway infrastructure.

Warm regards,
Manoj Garg
Vice Chairman, RLDA

MESSAGE FROM MEMBER REVENUE

Dear Colleagues,

I am pleased to share that RLDA has grown steadily over the years with respect to earnings and in the year 2024-25, RLDA has achieved notable success in revenue generation of Rs 1297.81 crore in the financial year, which is 35% higher than the earning for the year previous year, reflecting the success of our strategic focus, financial discipline, and commitment to modernizing railway infrastructure.

PROPOSED VIEW OF TIRUPATI RAILWAY STATION

In the quarter, RLDA has started inviting bids on Revenue share model like bids for Land plots at Boulevard, Subzi Mandi (New Delhi), Supari Baug - Parel (Mumbai), Bandra East (Mumbai), Mahalaxmi (Mumbai), Built-up spaces at Gurugram, Lucknow, Air space at Tirupati and MFC Sikar, which will fetch substantial revenue in future years. The Model has been developed keeping in mind the market considerations, RLDA interest and a future vision with respect to real estate dynamics.

Apart from Revenue share model, the Quarter saw the addition of a new chapter in the evolving journey of RLDA with the addition of Integrated Station Facility Management Vertical. Requests for Proposal (RFPs) have been issued for appointment of Agencies for providing ISFM services at Gomti Nagar and Chandigarh Railway stations.

Key achievements in this quarter highlight our progress: on September 27, 2025, the Hon'ble MOSR(R), Shri Ravneet Singh, inaugurated 35 residential quarters in Ludhiana, featuring modern Type-V, Type-IV, and Type-II units, along with a clubhouse and sports amenities. The project was completed in just 15 months. On September 24, 2025, the GM/CR inaugurated the newly refurbished Vigilance Office at Central Railway HQ, Mumbai, which was constructed by RLDA. Also, Multi-Functional Complexes have been commissioned at Anand and Sambalpur, strengthening our infrastructure presence beyond major cities.

I extend my sincere appreciation to the RLDA team for your dedication and professionalism. Together, let us continue delivering transformative projects that redefine Indian Railways' infrastructure and create lasting value for the nation.

Warm regards,
Rabindra Nath Mishra
Member Revenue, RLDA

MESSAGE FROM THE EDITOR'S DESK

Welcome to the latest edition of RLDA Connect! As RLDA continues to drive innovation in India's railway infrastructure, this newsletter reflects our progress, vision, and commitment to excellence. The enthusiastic response to previous editions has been truly motivating, and we are delighted to reconnect with our readers.

This issue highlights some of RLDA's key achievements. In our knowledge Centre, we showcase the Integrated Station Facility Management (ISFM) model, which delivers world-class passenger experiences at redeveloped stations by integrating housekeeping, O&M, and commercial activities under professional management by a competent authority.

Meanwhile, our Creative Corner explores the Revenue Share Model, fostering continued sharing of earnings with developers to unlock the full potential of railway land while ensuring predictable revenue and shared gains.

As we move forward, RLDA remains committed to engaging with stakeholders across X (formerly Twitter), Facebook, LinkedIn, Instagram, and YouTube, sharing updates, insights, and milestones. I extend my sincere gratitude to our dedicated team, whose passion and hard work continue to make these accomplishments possible.

Thank you for being part of this journey. Together, let's continue redefining the future of India's railway infrastructure.

Warm regards,
Apurva Agnihotri
General Manager / Security & IT, RLDA

CREATIVE CORNER

RLDA REVENUE SHARE MODEL

Maximizing Value Through Shared Gains

LAND PLOTS

Boulevard Road, Delhi
Mahalaxmi, Mumbai
Bandra (East), Mumbai
Supari Baug-Parel, Mumbai
Subzi Mandi, Delhi

BUILT-UP SPACES

Gurugram Railway Station
Lucknow Railway Station

AIR SPACES

Tirupati Railway Station
GSRTC Tower, Surat

REVENUE SHARE MODEL

MUTUAL GAINS

- Clearly titled land/space of Indian Railways
- Land/space in premium location
- Brand Railway & RLDA
- Professionally assessed reserve price
- Quality development by established developer
- Consistent earning of both
- Optimum utilization of land/space
- Area development

Driven by vision to be a leader in creating value through redevelopment of Land, Built-up spaces and Air spaces, RLDA has come up with Revenue Share Model (RSM) – a transparent, collaborative, and forward-looking framework designed to unlock the full potential of railway assets. This model redefines how responsibilities between RLDA and developers are structured, ensuring both long-term value creation and sustainable infrastructure growth.

Traditionally, projects were awarded through an upfront lease-premium model, where developers paid a sizable upfront amount to secure lease rights. While effective in generating immediate revenue, the model created a responsibility on developers at the onset of the project for immediate arrangement of funds. The Revenue Share Model addresses these challenges by linking payments (to RLDA) with projected project earning (in business plan) as well as actual revenue generation, along with due care of RLDA's interest.

Under the RSM framework, RLDA provides the land on lease and developers take responsibility for planning, financing, constructing, and operating the project. Revenue earned from the development is deposited in an escrow account, ensuring fair, transparent, and contract-bound sharing between RLDA and the developer within ambit of legal requirements. This eliminates sizable upfront payments, reduces financial risk of developers and encourages broader participation – especially from developers focused on innovation, quality in construction, reaching out to customer, and imparting long-term community value.

To safeguard RLDA's interest, the model involves certain checks related to RLDA's share of gains through benchmarks set for Minimum Guarantee Amount, Minimum Annual Guarantee Amount and Cumulative payment to have been made up to certain years, (check point years) mentioned in Bid form 12 of the RFP. The model thus ensures predictable and adequate returns for RLDA and Indian Railways. This model balances accountability with flexibility – safeguarding RLDA's interest while enabling the developers to deliver efficient, modern, and commercially viable projects.

The Revenue Share Model is being introduced to cover all types of assets, Land plots, Built up spaces and Air spaces. Bids have been invited / under process of inviting for several high-value RLDA projects. The bid invitations include the commercial development of land plots at Boulevard Road in Delhi, Subzi Mandi in Delhi, Mahalaxmi in Mumbai, Supari Baug-Parel in Mumbai and Bandra East site in Mumbai. The bids for built-up areas in Gurugram Railway Station, Charbagh Railway Station in Lucknow and Air space at Tirupati Railway Station have also been invited. In the coming months, bids for more assets viz land plots, built up spaces and Airspace are in pipeline. The new model has attracted major interest from investors as evident from queries received and successful participation in Pre-bid meetings.

By aligning financial sustainability with developmental vision, the Revenue Share Model stands as a win-win approach–one that promotes market-oriented development, rewards performance, sharing of gains and ensures that railway assets contribute optimally to India's growing infrastructure landscape.

KNOWLEDGE CENTRE

INTEGRATED STATION FACILITY MANAGEMENT (ISFM) REDEFINING PASSENGER EXPERIENCE AT RAILWAY STATIONS

The Rail Land Development Authority (RLDA) is transforming the way passengers experience their travel at railway stations by introducing the Integrated Station Facility Management (ISFM) model—an approach that integrates Housekeeping, O&M and Commercial activity at the Railway Station under one unified setup by an agency with capability of maintaining high standards – which is on-boarded through a fair, transparent open bid process.

The ISFM framework thus ensures that railway stations are managed with professional precision and service excellence, and that the standards of these world class statuses are maintained. ISFM also brings together multiple aspects of station upkeep under a single, accountable operator—ensuring seamless coordination and consistent quality.

The model has been developed after intensive deliberations, analysis of other SFM models of similar nature like airports and taking cues from successful facility management at Rani Kamlapati Railway Station at Bhopal.

Gomti Nagar Railway Station in Lucknow, the first station built by RLDA, was the first station to invite bids for Integrated Facility Management on 4.09.25. This station, which showcases elegant, airport-like architecture and world-class passenger amenities, shall be managed under the ISFM model to ensure high standards of facility management. RLDA has also invited bids for Integrated Station Facility Management at Chandigarh Railway Station on 26.09.25. Bids for other Railway Stations are also in pipeline. In addition to O&M and housekeeping, the scope of work of ISFM agency includes management of commercial activities and since the permitted commercial activities have a wide span of businesses, there is a considerable scope of earning for the ISFM agency and for RLDA, as the onboarded agency will pay an annual license fee to RLDA.

Through the ISFM model, RLDA is not only redefining how stations are managed but also transforming them into vibrant, passenger-centric city hubs—where comfort, convenience, and innovation come together to create a new benchmark in railway infrastructure management.

RLDA WELCOMES DURING THE QUARTER

1. Sh. Rabindra Nath Mishra – Member/Revenue/RLDA
2. Sh. Abhay Kumar – General Manager/Station Projects/Delhi
3. Sh. Lt. Col. Biswajit Sahu – JGM/Civil/Chandigarh
4. Sh. Arman Singh – DGM/Civil/Delhi
5. Sh. Md. Samiuddin – Manager/Drawing/Delhi
6. Sh. Prince Kumar Singh – AM/Electrical/TRD/Mumbai I
7. Sh. Gulshan Soni – Protocol Inspector/Delhi

PROPOSED VIEW OF SAFDARJUNG RAILWAY STATION

RLDA FAREWELL DURING THE QUARTER

1. Sh. Vinod Kumar – ED/SP/Delhi
2. Sh. Sudhir Singh – CPM/Lucknow
3. Sh. Anil Kumar – General Manager/Electrical/NDLS
4. Sh. Col. Siddharth Parmar – JGM/P-8/Delhi
5. Sh. Rajesh Basawaraja Chalwadi – JGM/Finance/Ahmedabad
6. Sh. Damodar Lal Garg – DGM/Project/Expert/Jaipur
7. Sh. Tarun Kumar Minocha – Manager/Civil/Chandigarh
8. Sh. Murali Krishna – AM/Project/Secunderabad
9. Sh. Virender Singh – AM/SD
10. Sh. Sanjay Naresh – AM/Law

Agreement Signed During This Quarter

Lease Agreement signed for mixed use development of Railway Land opposite Satna Station building of Jabalpur division, dt 18.07.2025

Lease Agreement signed for Residential development of Railway Land at circular Road, Ajmer, Rajasthan

TENDER @UPDATE

RLDA/2025/RFP/CD-04, Dated: 06.08.2025

Grant of Lease for Development of 21568.35 Sqm of Boulevard Road Railway Colony, Delhi for 99 years

Lucknow News: चारबाग पहुंचे आरएलडीए इंजीनियर, परखी तैयारियां

लखनऊ ब्यूरो
Updated Sat, 12 Jul 2025 04:15 PM IST

सरकुलेटिंग एरिया में रखी जाएगी कॉन्कोर्स की नींव

माई सिटी रिपोर्टर

लखनऊ। चारबाग रेलवे स्टेशन पर शनिवार को आरएलडीए इंजीनियर पहुंचे। इंजीनियरों की टीम ने सरकुलेटिंग एरिया में कॉन्कोर्स की नींव रखने से लेकर अन्य निर्माण कार्यों के बाबत चर्चा की और तैयारियों का जायजा लिया गया।

उत्तर रेलवे लखनऊ मंडल के चारबाग स्टेशन के अपग्रेडेशन का काम रेलवे भूमि विकास प्राधिकरण(आरएलडीए) की ओर से करवाया जा रहा है। आरएलडीए ने पहले चरण में सेकेंड एंट्री की ओर निर्माण कार्य करवाए। वहीं अब कॉन्कोर्स के लिए नींव डालने का काम हो रहा है। कॉन्कोर्स एक ऐसी छत होगी, जो लखनऊ जंक्शन तक फैली होगी। यहां यात्री सुविधाओं को विकसित किया जाएगा। कॉन्कोर्स के फाउंडेशन के तहत चारबाग के प्लेटफॉर्म नंबर चार व पांच पर ट्रैफिक ब्लॉक लेकर कार्य करवाए गए हैं। वहीं अब प्लेटफॉर्म नंबर दो व तीन पर भी ब्लॉक लेकर काम करवाए जाएंगे। इसी क्रम में चारबाग स्टेशन के मुख्य भवन के सामने सरकुलेटिंग एरिया में बनी पार्किंग में भी निर्माण कार्य होंगे। कॉन्कोर्स के लिए नींव रखी जाएगी। इसके लिए पार्किंग खाली करवाई जा चुकी हैं। अगले हफ्ते तक यहां कंक्रीट व अन्य बिल्डिंग मैटीरियल गिराई जाएगी। आरएलडीए इंजीनियरों की टीम शनिवार को चारबाग स्टेशन पहुंची। इंजीनियरों ने सरकुलेटिंग एरिया में होने वाले निर्माण कार्यों के बाबत रेलवे अफसरों से विचार विमर्श किया। साथ ही इस बाबत क्या तैयारियां हैं, उसका भी जायजा लिया।

With 'Airport-Like' Food Courts & Cleanliness, Check First Privately-Managed Railway Station Of...

Lucknow's Gomti Nagar Railway Station is set to create history by becoming Uttar Pradesh's first privately-managed railway hub. This move is being seen as a big step in the modernisation of Indian Railways. While train operations, security, and ticketing will remain under Indian Railways, almost everything else at the station will now be managed by private companies.

From cleanliness to catering, parking to passenger services, private operators will look after the daily management of the station. The aim is simple: to make railway stations feel more like airports, where passengers can expect modern facilities, better upkeep, and smoother services.

Private operators will handle most services under RLDA supervision

According to News18 Hindi, the Rail Land Development Authority (RLDA) has been given charge of inviting private firms to run services at Gomti Nagar station.

These companies will get a 9-year license, with the option to extend it for another three years. Out of the total earnings, 15 per cent will go to RLDA, and the remaining 85 per cent will stay with the railways, News18 Hindi also states.

For passengers, this means they can look forward to cleaner stations, organised facilities, and food courts that resemble those at airports.

Similar changes are also planned at Chandigarh railway station, which has been chosen alongside Gomti Nagar for this pilot project.

Why was Gomti Nagar station chosen for this project

Gomti Nagar is one of the busiest stations in Lucknow, reportedly handling nearly 76 trains every day. With six platforms and direct connections to cities like Gorakhpur, Chhapra, and Barauni, it plays a vital role in passenger movement in eastern Uttar Pradesh.

Prime Minister Narendra Modi had inaugurated the revamped station earlier, which now has solar-powered systems, escalators, elevators, and commercial spaces.

By allowing private management, authorities reportedly hope the station can maintain these upgraded facilities efficiently and ensure passengers get a world-class experience.

Benefits and concerns of privatisation

In addition, experts believe this model will greatly improve passenger comfort.

THE TIMES OF INDIA

Nagpur Station To Get Airport-Style Elevated Plaza Linking All Platforms

Viraj Deshpande / Sep 27, 2025, 05:39 IST

Nagpur: The redevelopment of Nagpur railway station is bringing with it one of the most striking additions in its history — a state-of-the-art elevated concourse or roof plaza that will connect directly to all platforms.

Inspired by the modern designs of Rani Kamlapati railway station in Bhopal and Gandhi Nagar station in Gujarat, the elevated concourse is set to not only streamline passenger movement but also give Nagpur station a sleek, "airport-like look," making it a world-class travel hub.

Inspired by the modern designs of Rani Kamlapati railway station in Bhopal and Gandhi Nagar station in Gujarat, the elevated concourse is set to not only streamline passenger movement but also give Nagpur station a sleek, "airport-like look," making it a world-class travel hub.

The Railways had recently closed the platform number 5 for the construction of the elevated concourse.

According to railway officials, the roof plaza will spread over 5,616 sq m, with a width of 108 metres and a length of 52 metres. Strategically built above platforms 2/3 to 6/7, the facility will function as the central access point for passengers arriving from both the east and west sides of the station. "When a passenger arrives at the railway station from the west side, (s)he will be dropped off near the entrance. From there, (s)he will have direct access to platform number 1 or will use an escalator or staircase to go to the roof plaza. The roof plaza will have access to all the platforms and will also be connected with platform number 8," said a senior official.

Union Minister Ravneet Singh Inaugurates Newly Built Railway Colony in Ludhiana

PNS ■ Ludhiana

Union Minister of State for Railway and Food Processing IndustriesRavneet Singh on Saturday inaugurated the newly redeveloped Railway Colony in Civil Lines, near Fountain Chowk, Ludhiana. The inauguration ceremony was attended by Member Planning RLDA Tarun Goel, Divisional Railway Manager, Northern Railway, Firozpur Sanjeev Kumar, Chief Project Manager RLDA, Balbir Singh, amongst others.

The project offers quality residential facilities to railway employees while enabling the commercial development of the area. RLDA, a statutory authority under the Ministry of Railways, has redeveloped the Ludhiana Railway Colony, comprising 35 railway quarters, a clubhouse, recreational and sports amenities as part of an initiative to replace the old housing with modern, well-equipped facilities for railway employees, along with the commercial development of land to generate revenue. The redevelopment utilised 4,072 sqm for residential use, while the remaining 21,185 sqm has been leased out for commercial development to generate revenue through an upfront lease premium model. The project was completed in 15 months, reflecting RLDA's commitment to redeveloping Railway colonies and optimising land use through sustainable and revenue-generating urban development.

Vice Chairman, RLDA, Manoj Garg , said, "The redevelopment of the Ludhiana Railway Colony is a transformative initiative, seamlessly combining sustainable living with strategic urban development. By providing modern, state-of-the-art housing facilities for railway employees while unlocking commercial potential in the area, it sets a benchmark for future projects. Several more such colonies are in the process of being redeveloped by RLDA, reflecting a significant step towards enhancing staff welfare, elevating residential standards, and optimizing railway land for revenue generation."
